## Birth of a Butterfly

## MONARCH BUTTERFLY

A mama butterfly lays all her eggs, Out pops a caterpillar, crawling on its legs.

The caterpillar first is rather thin, But then it eats till it bursts through its skin.

After growing nice and big, The caterpillar climbs on a leaf or twig.

It makes a shell where it hangs inside, Then the shell cracks, and the parts divide.

Inside the shell, a change was going on, The form of the caterpillar now is gone.

When the shell opens, what comes out? A beautiful butterfly fluttering about.
