# Help Camilla sort the shapes.

Directions: Cut out the shapes on the bottom and glue in the correct boxes.

The illustration shows a girl named Camilla with curly hair and a bow, standing in the center. She is positioned between four large rectangular boxes arranged in a 2x2 grid. Each box contains a heart-shaped label with a shape name: 'Squares' (top-left), 'Circles' (top-right), 'Triangles' (bottom-left), and 'Other Shapes' (bottom-right). The boxes are currently empty, intended for pasting the shapes from the bottom section.

A grid of 14 different shapes, each enclosed in a dashed-line box for cutting. The shapes are arranged in two rows of seven. The first row contains: a square, a hexagon, an inverted triangle, a heart, an oval, a five-pointed star, and a horizontal rectangle. The second row contains: an upright triangle, a circle, a square, a larger circle, another upright triangle, another square, and a cross.
