

Color Fun Facts:

Year introduced: 1990

Name of Crayola® Crayon box first included in: Box of 64

For hundreds of years the only way the teal dye could be used was to get it naturally from a tiny plant that only grows in India. This dye was very hard to find and very expensive. People liked teal because it was so unusual. Today it is easy to color artwork with this beautiful color. Use your teal blue crayon to color this pretty peacock.
