

RAINBOW DASH

Rainbow motherfucking Dash. Holy shit, I don't even know if you can handle this hard core rock star of a pony. Rainbow Dash is so far out of your league that even she'd have to fly for days just to find you and beat you down for getting all up in her shit. And when she flaps those cerulean wings, she breaks the sound barrier.

Have you ever had a fan club? Didn't fucking think so. Got any t-shirts with your face on them? That's another negative, ass wipe. Different story with Rainbow Dash. If you want to impress this crazy pony, you'd better get out an entire box of crayons, because she's demanding the whole god damn rainbow.

God damn, this pony is the fucking tits.

Now shape the fuck up and color this cunt in, 'cause Rainbow Dash doesn't have all day.
