

Keep Sam Safe at Home

You may not think about safety around water at home. But there are a lot of ways we use water every day and a lot of reasons we need to be careful. Draw a line to match each of Sam's activities to the sign that says "Safe" or "Not Safe."

- Leaving baby brother alone in the tub.
- Splash in a puddle.
- Wash hair.
- Touch water that's boiling on the stove.
- Use a hairdryer in the water.
- Leave buckets and kiddy pools full of water.
- Drink a tall glass of water.
