

# FRACTION CHEESEBURGER BUFFET

**Directions:**

1. Cut out each circle. Color each piece of food.
2. Make many different combinations of cheeseburgers to help you learn fractions.
3. For example, take a whole bottom of bun, place  $\frac{1}{2}$  meat,  $\frac{3}{4}$  cheese,  $\frac{1}{3}$  lettuce,  $\frac{5}{6}$  tomato, and  $\frac{5}{8}$  top of bun, on top of each other.
4. Make up your own fraction combinations to serve different cheeseburgers in the buffet.
