

Directions for Hot Air Balloon Mobile:

1. Print two copies of this page. Decorate with Crayola® crayons, markers. Cut out the shapes and glue them onto a piece of thin cardboard, for example a recycled file folder.
2. Punch a hole in the top using a hole punch. Tie pieces of ribbon or yarn to each mobile piece at different lengths. Use the hole punch to punch holes in a recycled plastic lid. Tie strings to lid. Then hang up your mobile and watch your balloon float among the clouds.
