

STEGOSAURUS

(STEG - oh - sore - us)

SIZE

26-30 feet (8-9 m) long

DIET

HERBIVORE
(Plant Eater)

FUN FACT

Some believe the plates on a Stegosaurus back were for protection, others think they collected and dispersed heat - like on-board solar panels and air-conditioning!

About 110 million years ago

TRIASSIC Period (245 - 206 million years ago)

JURASSIC Period (208 - 145 million years ago)

CRETACEOUS Period (145 - 65 million years ago)
